Skills: Cloud Computing and Web development

P E R S O N A L   P R O J E C T S

Virtual Assistant
Like any child who has seen iron man, I always wanted to have my own Jarvis, my own virtual assistant. Hence, I coded my own in Python.

Personal Portfolio
I created my own personal website to show my resume in a fancier way with React, Html 5, CSS 3 and JavaScript

Improved version of my school's scheduler
My school had their own scheduler with our classes on it, but it was very slow and difficult to read. Therefore, I made my own with React, Html 5, Css 3 and JavaScript
